PROPERTY DESCRIPTION

Don't Miss It! This is an exceptional property that uniquely blends quality antique structures with new construction...creating a one of-a-kind home. Initially you are introduced to this home by entering a receiving room, in the 1800's section, that offers a fireplace, pine floors and large stained glass window that reveals glimpses of the large custom kitchen. Proceeding further there is the Dining Room with fireplace and then the two-story Living Room, with open staircase and walkway to Main Bedroom, in the original log structure with exposed timbers. The Great Room offers a fireplace and half bath. Finally, there is that large family kitchen with tile floors, custom cabinetry, granite counters and quality appliances. A Mud Room and half bath add the finishing touch to the first floor. The second floor consists of 5 bedrooms, 3 full baths, 3 fireplaces, Den and Laundry. This home is now receiving the finishing touches.
